

“We use technology every day to do our banking, book our holidays and do our food shopping.

The NHS App enables us to connect with the NHS in the same way – at a time and place that suits us.”

Dr Ian Pawson,
GP partner, Brownlow Health

Get more control of your health and care

Get the NHS App

A simple and secure way to access a range of NHS services on your smartphone or tablet

Introducing the NHS App

The NHS App is the first app from the NHS for people across England.

Use the NHS App to:

- **book and cancel appointments**
search for, book and cancel appointments at your GP practice
- **view your record**
get secure access to your GP medical record
- **order repeat prescriptions**
see your available medications and place an order
- **check your symptoms**
find trusted information on hundreds of conditions and treatments and get instant advice
- **register to be an organ donor**
easily manage your preferences on the NHS Organ Donor Register
- **choose how the NHS uses your data**
register your decision on whether your data can be used for research and planning.

The NHS App gives you more control over your health and care

Use it wherever you are, at any time of the day or night.

It puts information about your health and treatments at your fingertips. This means you can see it when speaking to a health and care professional, for example.

A digital front door to the NHS

The NHS App has been designed with patients and healthcare professionals to be your digital front door to the NHS.

It is quick and easy to use and we will be adding new features in the coming months.

Apps are not for everyone so the NHS App won't replace existing services. You can still contact your practice in the usual ways if you prefer.
